Notwit istancing the present rec ine in wheat, que die se ieu. Leaving ser rooms, se descenc. very genera ya so se ul ce ing among our mer ec the stairway. At the first hor-anding, a chants which is a so strengthened by acvices rom New York that the a trace w be leat in y and prosperous. Since the panic of ast year, the armers have been getting high prices of a hame cescribe their weather; corn and wheat, and or a their crous. Every. thing which they have but into the market has mace them a remunerative return. At the same time the immediate influence was to incuce the practice of a right economy. The result of this is that the people have benty of money, but very sma stocks o goods. Cocoubted y they will continue, as they ought, to practice economy; nut they must ill up their stocks again, and will cost by suying what is necessary. his will incuce a steacy and regular ocuanic, in a smaller way per labs than usea .- but of this will come the advantage a cash business, or very shortcrecise cuiva ent to casa. Near y a the eac. ing pranches of trace in the city report avorably and e aim an increase of pusiness. Reports rom New York show that, while here is no pro manty of arge sales or of any general speculative pusiness this a , owing to the caution of puyers, yet, on the whole, trace is satisfactory. instead of buying a read and anticipating another season's business is storing away, they buy or the current demand and day cash. "Te New York Bulletin says: "Al' ; us is aggravating to the arget istrautors of goods, but afords no reason for sum aing at the conclusion that the aggregate susmess this autumn is not to be 1000. Conficence is eache ay strengt lening, and, with the good crops we are now assured of, there is no reason for hope essness." anxiety is the present decline in wheat and the possentity that it may continue. We have now out two and a ga mont is of ace navagation et, and there is on hand in Chicago and Milwankee near y three times as much wheat as ast year at this time, being a rout six and a half mi. ions against tive and a ha mi tous. Shou c the present decine continue some weeks, and cigars, and a part of a partially constructed new orce arge sai ments u jon the ja afice of the. season, a gorge wou t 'o ow, necessitating s 11). ment by rail at high rates. It is per haps too ear y to specu ate u ion this, a though the use ications are last wheat wi rule ow rom ac co. oreign cemanc. To the armer, lowerer, it wil be more than an average year of proste, inasmuca as the nigh prices which he is getting or corn and oats, will more than o set any cefecit on wheat. On the whole, there is a stead

he London Times says: "he, 3 arcuis of

Ripon has become a Roman Catholic. The announcemen a ew cays ago that he had resigned the Gram Masters and o' the free Masons and wou co se succeeded temporari vony the Prince of Wa'es, caused much excitement, which is reigntened y the news that he has entered the Church of lame." At a xut 20 mi es rom der in is situater, the vi age o Sperenberg, noted or the decless we... that has ever been unc. Owing to the presence o gyrisum in the dea ity, which is at a moce-

rute cistance from the capita, it occurred to the government authorities o the mines to colain a supply of rock sait. With this end in view the sin sing of a size t or we 16 feet in diameter was commenced some ive years ago, and at a kept. o 280 eet the sa t was reached. he poring was continued to the further cent's of good feet. the clameter o' the sure being reducer to a sout 13 incies. The operations were subsentently Prosecuter of he aid of steam until a centa of a,ice cet was attailee. At this point the porin ; was elseontinued, the lover being still in the sat cenosits, which thus exhibit the enormous Pric mess of 2,907 cet.

When a ray o' sun light crosses as lacet from, an immense i um ser o sine partic es wi se noter, apparently in suspension Ciercin. 3. is. same ier has recent'v made some investigations into the quantity of this cust contained in 33.5 cubic eet of air, by causing that quantity of air to pass through a to se pacted with gundenttoe; which i erec on the particles. Se alterways

with the resulting and the conting and the resulting of the result
